**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Id like to choose a competitive provider for lower costs and to choose my options of what Id like to include

I say NO to price hikes that will increase the cost of internet and telephone services.

Broadband is critical to your home and business. Im an artist and need affordable internet to connect to potential buyers.

I have fiber today but were previously connected with competitive DSL. The reception/internet with ATT was awful and we continually had no internet. Plus, theyre customer service was abysmal.

We are thinking of joining Comcast for phone service as they now have cellular service and have been satisfied with their internet service and their customer service is off the charts. People here use to chase the att trucks down the street because their internet service was non existent and businesses suffered.
